Karen began the meeting with Staff updates as there was not a quorum present for action items. She reported that Lisa Lurie and Alicia Moss have begun working full time for the District. Sharon informed the Board that she has received the Draft Fiscal Year 2011-2012 Audit report. She was pleased to report that many of the processes that have been put in place to track financial and grant information have made it easier to retrieve documents for the auditor. She said that there were two findings in the audit. One showed that the Davis Bacon labor compliance issue from the previous audit had been cleared. The second finding deals with the District’s financial controls and for preparing audit statements. The finding was dismissed since, given our size, we are doing the best we can. Sharon reported that she needs only confirm a few numbers before finalizing the audit report.

Community Water Dialogue– Karen Christensen reported on the Community Water Dialogue effort that the District and partners have been engaged in over the past several years. She highlighted the many successes of the program including the Managed Aquifer Recharge and the Wireless Irrigation Network. In addition, the effort has changed the tone of water conservation and supply in the region from contentious to collaborative. Karen noted that the CWD partners are working on a plan for the future and have discussed options for moving forward. Karen explained that the District has been approached to be the fiscal agent in the next phase of the CDW. The CWD partners are working on a draft decision making agreement which will define the roles and responsibilities of each of the partners involved. The Board discussed the benefits of the relationship and felt favorable to move forward on an agreement with the CWD. Karen will keep the Board informed of any developments and will bring the draft agreement when it is ready.

Resolution 2013-03 – Tangi Chapman presented the Board with Resolution 2013-03, a resolution to submit a grant proposal to the State of California for an IRWM Implementation Grant for the Delaveaga Park Service Road project.
